DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3 and 5-8 are allowed.
2. The following is an Examiner's Statement of Reasons for Allowance:

In interpreting the claims, in light of the specification and the applicant's amendments filed April 24th, 2008, the Examiner finds the claimed invention to be patentably distinct from the prior art of record. The prior art does not teach all of the limitations of the independent claims in combination with the other elements presented.

The prior art of record teaches an automatically generated schema document based on a schema and one or more associated schema documents (Ingersoll, col. 4, lines 8-24 and 41-48; col. 5, lines 1-44). The information document records meta-information about the schema documents (Ingersoll, see, e.g., col. 5, lines 11-18 where the attributes are described, including namespace, library name, language, versioning, etc.). The meta-information includes an identification of a primary schema document and associated documents (Ingersoll, see, e.g., the hierarchical relationship in fig. 3; the meta-information defining family tree-structure including "major" versions in col. 5, lines 18-30; and parent, i.e. primary, node typing of 34-44).

However, as per claims 1 and 3, the prior art fails to teach a schema and one or more associated schema documents, wherein an identifier document is created that

records and formalizes meta-information of the schema including a primary document, associated documents, and their relationships, and more specifically, wherein the schema system uses an identification document that contains a three-part composite key for schema comparison comprised of a target namespace, schema location, and content to enable version identification, schema document comparison, request processing, and independent version management.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nicholas Taylor whose telephone number is (571) 272-3889. The examiner can normally be reached on Monday-Friday, 8:00am to 5:30pm, with alternating Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rupal Dharia can be reached on (571) 272-3880. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
